NEW ROUTE

To the Eastern Seaboard!

ONTARIO, SIMCOE & HURON

RAILROAD.

THE NEW RAILWAY ROUTE across the Isthmus of Canada, from the foot of the Georgian Bay on Lake Huron, to Toronto, is completed, and a line of Boats, calling at Milwaukee and all the principal Michigan ports, has been chartered to run in connection with it.

The Steamers

KEYSTONE STATE, Captain RICHARDS, 1,600 tons,
LADY ELGIN, Captain CRANDELL, 1,300 tons,
QUEEN CITY, Captain WILKINS, 1,200 tons,
NIAGARA, Capt. ——, 1,200 tons.

Will form a Tri-Weekly Line between Chicago, Milwaukee and Collingwood, the Northern terminus of the Ontario Simcoe and Huron Railway, by which passengers will reach New York in Seventy Hours from Chicago, and the Route being so arranged that Night Travel in all cases is avoided. First Class Boats, it will form the pleasantest route in existence to Eastern Cities.

The attention of shippers of Freight, and Merchants generally, is especially invited to the Route, as by it shipments from New York will reach Michigan ports in from SIX TO SEVEN DAYS LESS TIME than by the old Route via the Erie Canal and steam around the Lakes.

Connections will be made with Steamers for Lake Superior and Green Bay.

An Office will be opened in Milwaukee at an early date, meanwhile information may be had of Messrs. A. T SPENCER & CO., Chicago, or of the undersigned.

AMERICAN

Transportation Company.

CAPITAL, $900,000.

THIS COMPANY HAVING COMPLETED ITS ARrangements for a Transportation business to and from New York, Boston, Albany and Chicago and intermediate places, and believing that they can do the business cheaper, quicker and better than any other Company engaged in the business, owning all the propellers and boats to do it, solicit the patronage of the public. Goods will be shipped separately at New York for each line of propellers running from Buffalo, thereby insuring greater dispatch avoiding delays at Ware Houses, and damages in handling and carting.

They have purchased all the steam propellers and canal crafts heretofore owned by the following lines, and their former owners have become stock holders in this Company:—

THE MERCHANTS' TRANSPORTATION COMPANY. THE CLINTON LINE. THE NEW YORK AND CINCINNATI LINE. THE AMERICAN TRANSPORTATION COMPANY. THE WESTERN STATES LINE. THE NEW YORK AND WESTERN LINE. THE WESTERN LAKE BOAT LINE. THE TROY AND ERIE LINE.

ONTARIO, SIMCOE & HURON

RAILROAD.

THE NEW RAILWAY ROUTE across the Isthmus of Canada, from the foot of the Georgian Bay on Lake Huron, to Toronto, is completed, and a line of Boats, sailing at Milwaukee and all the principal Michigan ports, has been chartered to run in connection with it.

The Steamers

KEYSTONE STATE, Captain RICHARDS, 1,600 tons,
LADY ELGIN, Captain CRAMER, 1,300 tons,
QUEEN CITY, Captain WILKINS, 1,600 tons,
NIAGARA, Capt. ——, 1,200 tons.

Will form a Tri-Weekly Line between Chicago, Milwaukee and Collingwood, the Northern terminus of the Ontario, Simcoe and Huron Railway, by which passengers will reach *New York in Seventy Hours* from Chicago, and the Route being so arranged that Night Travel will all be on board First Class Boats, it will form the pleasantest route in existence to Eastern Cities.

The attention of Shippers of Freight, and Merchants generally, is especially invited to the Route, as by it shipments from New York will reach Michigan ports in from SIX TO TEN DAYS LESS TIME than by the old Route via the Erie Canal and steam around the Lakes.

Connections will be made with Steamers for Lake Superior and Green Bay.

An Office will be opened in Milwaukee at an early date, meanwhile information may be had of Messrs. A. T SPENCER & CO., Chicago, or of the undersigned.

VOLUME XI. MILWAUKEE DAILY SENTINEL. NEW SERIES.

THE DAILY SENTINEL.

Rufus King, Wm. H Watson & John S. Hillmore, PROPRIETORS,
OFFICE—NEWS AND FIRM OF
RUFUS KING & CO.

Saturday Morning, June 2.

BOARD OF TRADE MEETING—STRAIGHT CUT.—In our article Thursday, relative to the Board of Trade meeting and the Straight Cut, we stated that a petition had been presented by Mr. KILBOURN, requesting the city to issue more bonds in advance to the contractor—was opposed by Mr. MEDBERY, on the ground that the city was already in advance, and was laid on the table. Our information, it appears, labored under a misapprehension on this subject. Mr. KILBOURN offered no resolution of any kind, but at the request of a member of the Board, embodied in the form of resolutions the substance of the propositions made by him for expediting the work on the Straight Cut. The adoption of these was moved by Dr WARING; the first one carried, as already stated, and the second laid on the table, on Mr. MEDBERY'S motion. This last proposed that the city should negotiate their bonds thro' an agent appointed for the purpose, so that Mr. HAWLEY could obtain his pay promptly on the completion of work done. It further appears that the city is not in advance to Mr. Hawley for work done at the Straight Cut. The amount received by him to be paid is $21 000, and the estimated amount of work, materials, &c., $35,000.

The Common Council meet on Monday evening next, we learn, to consider and dispose of the vexed question. We must again express our belief that it is in their power to ensure the early completion of the new Harbor, and we hope they will act accordingly.

☞ We had the pleasure of a call, yesterday, from the Hon. O. L. MARTESON, for several years past the Representative in Congress from the Oneida District, N Y., and a member elect of the next House. He has been spending a week, or more, at Madison and Janesville and is delighted with all that he has seen of Wisconsin.

THE MAILS.—We regret that the assurances of the Postmaster-general, that the Mails between this place and Chicago were about to be carried over the railroad and more rapidly than there were to between Monday and Saturday, are not likely to be at once realized, owing to delays from the authorities at Washington, authorizing the change, have been received. The only change which has been made is that of the 4 here ofore afternoon southern mail to the evening boat, a change which don't strike us as much of an improvement.—[Kenosha Telegraph.

That is very much what we think here. Before this paper was drawn off an arrangement had been entered into for carrying the mails twice a day, between Milwaukee and Chicago. Now, however, for the day line has been withdrawn and the business transferred to the Rail Road, we get but one mail a day and that 18 hours behind time. In the fall ago, such an advance backwards is intolerable. The Lake Shore Rail Road would make friends and money by carrying the mail for *nothing*, rather than be a party to the "mail team" arrangement. Let them be overhauled, as a matter of accommodation to the public, and settle the terms with the P. O. authorities afterwards.

From the Herald of Freedom

Election News.

Lawrence, Wednesday, May 23.

The special election for Representatives to the Legislature, to fill the vacancy made such by the lamented proceedings on the 30th March, was held on the 22d inst., agreeably to the Governor's proclamation, and resulted in the election of the Free State candidates in the Lawrence district as follows:

Philip F Fowler	283 votes
John Hutchinson	283 "
Enoch D Lane	286 "
Scattering about	20 "

Everything passed off quietly, and without interruption from non-residents. There appeared to be but little interest taken in the election outside of Lawrence. This probably arose from the fact that the season is not *exactly* late, and farmers were busy preparing for planting.

The above returns were sent from persons who to gratify a personal pique, strengthened the hands of the opponents of freedom by throwing away their ballots.

The whole number of voters in this district was 300 at the census in February.

The votes in the Shawnee, will be gratified to learn from the above announcement that our attorney and late West Kansas correspondent, Mr. S. D. LANE, for several years a resident of this city, is a member elect to the first Legislature of the new Territory. Mr. LANE will make a useful and efficient member, and may be relied upon, in all contingencies, to stand up for Freedom and Free Institutions and to resist to the uttermost the progressions of the Slavery Propagandists. At the first trial in the Lawrence precinct the Missouri border-ruffians polled 750 votes to 251 for the "Free State" ticket. But Gov. REEDER having set aside that election for frauds, and ordered a new one, ATCHISON and his gang failed to appear the second time and the "Free State" ticket was elected without opposition.

DES MOINES RIVER IMPROVEMENT.—The contracts for the improvement of the Des Moines river, Iowa, have been let. The locks are to be two hundred feet long, being twenty-five feet longer than originally contemplated by the State of Iowa, and large enough to pass the largest class of boats navigating or running the Upper Mississippi, to be completed to Fort Des Moines, (a distance of two hundred and four miles above the confluence of the Des Moines with the Mississippi) on the 1st July, 1858; but a considerable portion of the work will be navigable for steamboats, and improvements amount for water-power creat by the much earlier period.

ANTI-RAPPISM COMING.—The Spirit Rappers here seem to astonished themselves with a prediction, which, if it should be realized, would be likely to prejudice, to some extent, the *position* of this part of the country in the eyes of the world. They say that, by means of an earthquake, a flood is to come shortly which will sweep from the northwestern and central settled portion of the United States, into the Gulf of Mexico. The earthquake is to break up the rocky ridge which retains Lake Superior in place, and let it run.

NEW HAMPSHIRE.—The Legislature of New Hampshire will meet on the 6th of June. The most important business of the session will be the election of two Senators in Congress—one for a full term, the other to fill the vacancy occasioned by the death of Mr FRANKLIN PIERCE.

LA CROSSE & MISSISSIPPI R. R.—The Beaver Dam *Republican* says that this company has purchased a road sufficient to lay the track to Noyce's Corners, four miles from that village, and a meeting of the friends of the road had been called to take measures to help along it. *Pull* from that end, neighbors, we will *push from this* end.

IMPRISONMENT FOR DEBT ABOLISHED.—The Boston *Post*, says, claims that the late Massachusetts Legislature should have credit for at least one good act—the passage of a bill abolishing imprisonment for debt. We believe South Carolina is now the only state whose statute books are disgraced by a law imprisoning debtors.

FLOURING MILL BURNT.—The Flouring Mill of F. Schmidt & son, at Jerseyville, Illinois, was destroyed by fire on the 20th ult. and one of the sons of the senior partner perished in the flames. About 200 bbls Flour and 1300 bushels of wheat were consumed with the mill. Loss $12,000, insurance in St. Louis Company $4000.

PICKING OAKUM BY UNITED STATES PRISONERS.—Judge Giles, in the United States District Court at Baltimore recently decided that there was no law or authority to compel prisoners of the United States courts, sentenced to the jail for punishment, to pick oakum or do any work whatever.

NEW LINE OF STEAMERS.—The Bostonians are about to form a line of propeller steamers between their city and St. Johns.

Correspondence of the Sentinel.

NORTHERN IOWA.

RICHMOND PLACE, Rock Prairie, }
May 29th 1855. }

DEAR SENTINEL:—

It is certainly true that no state in this Union is more prosperous, healthier, or has a more delightful climate than your own favorite Wisconsin. You are young in years—but far advanced in moral progression. In agricultural prosperity, public enterprise, intellectual worth, and in the Freedom-loving sentiment of her people, Wisconsin is unrivalled. Yet, in the same latitude west of the Mississippi, there is a country of vast magnitude, whose resources are undeveloped, with advantages fully equal to your state. This territory is now rapidly filling up with an intelligent class of settlers, who go out well prepared to carry on all branches of business. Did the people of the Eastern states *really know the* advantages of a genial atmosphere, productive soil, pure water, and a full supply *for Nature's* wants, over the pent-up condition, impure air, and poverty-*suffering circumstances surrounding* city life, how quickly would our Eastern cities depopulate, and our *Western prairies* "blossom as the rose."

The Milwaukee & Mississippi Railroad is gradually pointing its course toward this delightful country, and may God speed the day when it shall be completed, and convey from thence the surplus products of the soil, which will be received in exchange for the car loads of emigrants seeking homes. This road when completed to Northern Iowa, will strike the heart of a magnificent country. The counties of Alamakee, Winneshiek, Fayette, and Clayton, lying directly in the north-east corner of Iowa, bordering on the Mississippi sixty miles, and extending back fifty, comprise an area of some three thousand square miles of country, which, in fertility of soil, salubrity of climate, fine timber, pure spring water, beautiful prairies, and easy access to market, cannot be surpassed anywhere in the Western World. There are yet thousands of acres of government land in these counties selling at $1 and $1.25 per acre, which in five years will probably be worth $5 and also good improved farms can now be purchased at $10 per acre, which will doubtless double in value in that time, provided the Milwaukee & Mississippi Railroad is completed to Prairie Du Chien before the close of 1856, as now contemplated.

The country bordering on the Mississippi presents a rough, broken appearance, and it is impossible to obtain a correct impression in regard to its true features, unless you penetrate the interior, and bring to view the grand panorama of Groves, Prairies, Rivulets and Forests, that extend in the distance. This vicinity needs no flattering representations in behalf of its merits. Give it a fair test and it will recommend itself. And I would advise all who contemplate a visit westward to take passage at Dubuque in one of those fine Packet Boats that ply daily from all ports below to Saint Paul, and branch out into the country by stopping either at Guttenburg, Clayton City, or McGregor's Landing in Clayton Co., or at Columbus and Lansing in Allamakee, where they will find stages and coaches ready to convey them to any point in the interior. At Decorah the County Town of Winneshiek, a very flourishing village on the Upper Iowa River, you will find stages running directly to Saint Paul, when the Steam Boat will again relieve the monotony and fatigue attending a land journey of 200 miles. I have hardly time, even to enumerate, much less to give the characteristics of the fine Towns of Garnaville, Elkader and Monona in Clayton County; of West Union, Albany and Auburn in Fayette; of Waukon, Malvo, Waterville, Hardin and Lybrand in Allamakee; of Decorah, Freeport, Frankville, Moncek, Calmar and Burr Oak in Winneshiek; all of which are flourishing places and bid fair to be points of considerable importance. These villages, and many others not named, will be seen by the traveller making the trip which I have just described. From some five years' experience west of the Mississippi I have had ample *opportunity to* judge of the merits of different localities, and I can truly say to the emigrant if you wish to enjoy good health, prosperous circumstances, pure spring water, a wholesome atmosphere, intelligent neighbors, and a contented mind, seek you a home in Northern Iowa.

Yours, Fraternally, A. B. W.

MISREPRESENTATION CORRECTED.—The *Madison* papers gave currency, last week, to the story that the M. & M. R. R. *Company* had refused to bring freight from Alton, which had been left there by the Beloit & Madison R R Co., and indulged in various strictures thereupon. It now appears that there was no truth in the story and the Madison *Patriot* thus corrects it:

We are happy to state that the above was an error, and that during the month past, they have paid that road over $2000 for back charges, and expect to pay them a good many more. Furthermore we believe that there is a good business feeling between the two roads, and Mr. Darwin, the Agent here, informs us that they have never refused freight from any road. We are happy to *state corrected.*

BUSINESS AT THE SUSPENSION BRIDGE.—A correspondent of the Buffalo *Republic*, writing from the Niagara Suspension Bridge, under date of the 24th inst., says that the business at the bridge is immense. The goods passing over it, for the month ending the 5th inst., were valued, by customs rules, at *ten millions of dollars!* Forty-five trains of *cars, passenger and freight*, arrive at the Bridge daily, over the different roads there terminating. On the 23d inst., seventy-one loaded passenger cars arrived at the Bridge, and about the same number departed.

DEATH OF AN OLD SETTLER.—Thomas McCarthy, Esq., one of the first settlers of Iowa, and a highly esteemed gentleman, died at Dubuque on the 24th ult. He built the first house ever erected in the now city of Dubuque and settled the first white family on the west side of the river above Keokuk. He was also a member of the first General Assembly of the Territory of Wisconsin, in which Iowa was then included, and was elected one of the delegates to form the Iowa State Constitution.

EXPENSIVE RAILROADING.—*The Americans* who own and run the Copiapo Railroad in Chili, South America, are obliged to distil sea water for the use of their engines, at a cost of 2c per gallon, as they find that the water of the country deposits lime in the boilers at the rate of ¼ inch per day. Its track is 75 miles long. Fifty miles of it is from Copiapo up into the mountains—twenty of which traverses the desert of Atacama, where there is not a drop of water, and where, consequently, beasts of draught and burden suffer and too frequently perish. Freight for these 50 miles is $10 per ton. The passenger fare is $4.25.

EDINBURGH REVIEW.—We are indebted to Archibald Wilson, 175 East Water St., for an early copy of Leonard Scott & Co's. republication of the Edinburgh Review for April. The leading articles in this sterling periodical are, "Slavery in the U. S.," "*Travels in Siberia*," "M. Huc's travels in China," "the Chemistry of *Common Life*," "the Autocracy of the Czars," and "Army Reform." The Edinburgh is furnished to subscribers at $3.00 a year. It is a very able quarterly.

☞ We hear that within the last day or two several Chicago gentlemen have shown their *good taste* by purchasing sites for summer residences in and near Racine. The Lake Shore Rail Road will make it an easy matter for men of means to reside in Wisconsin, while doing business in Chicago.

SAUK CO., STANDARD.—Mr. A. C. HOLT has retired from the Sauk Co. *Standard*, and is succeeded by Messrs. VICTOR E. PECK and JAMES L. DENNIS.

ENJOINED.—The Ann Arbor *Argus* of the 25th says: We are informed that the Bank of Washtenaw was enjoined, on Tuesday of this week, by order of the Hon. Judge Johnson, "from the exercise of any of its corporate rights and privileges." The complainants, we understand, are Messrs. Beals, Thompson & Co., and D Rensing, of this city. We presume the Bank will now be wound up.—[Detroit Tribune.

SUPREME COURT.

106th DAY OF THE TERM.

May 31st, 1855.

John E. Cowles et al, plaintiffs in error, vs. Benj. McVicker, defendant in error. Opinion by Justice Smith. Judgment of court below affirmed with costs.

Thomas D. Bond, plaintiff *in error*, vs James Morin et al, defendants in error. Continued under advisement.

Peter Walsh, plaintiff in error, vs. Jameson Hamilton, defendant in error. Continued under advisement.

Joseph Bancroft, appellee, vs Henry W. McCauley, impleaded &c, appellants. Continued under advisement.

State of Wisconsin ex rel. Geo. P. Delaplaine vs the Commissioners of School and University Land. Continued under advisement.

The Attorney of the State being absent, E. M. Hunter Esq., a counsellor of this court, gave the court to be informed that on the 27th inst., the Hon. Hiram A Wright, late Superintendent of Public Instruction, departed this life, at his residence at Prairie du Chien. And in token of respect for the memory of the deceased, the court adjourned for one day, and directed these proceedings to be entered upon the records of the court. —[Milwaukee Journal.

STEAMER SEBASTOPOL.—A new steamer, intended to run in the upper lake trade, has just been completed at the ship yard of L. Moses, in Cleveland. She bears the appropriate name of *Sebastopol*. For strength and capacity, says the *Plain dealer*, she is not surpassed by any craft in that trade on the lakes. Her engine was manufactured at the Cuyahoga Works, has 32 inch cylinder, 11 feet stroke of piston, and is rated at 800 horse power. The wheels are 30 feet in diameter. She is about 830 tons capacity, and with all her machinery, draws but four and a half feet water, and with full cargo will not exceed eight and a half feet draught. No lighting over shoalwater, on the St. Clair Flats can be apprehended. She cost about $60,000.

A FAIR RETORT.—The New York correspondent of the Albany *Express* gives us a *bon mot* of Dr Bethune, worth prose *ying*. Just before the late anniversaries closed, the reverend gentry and *the demi-semi-reverends* that trained after them, had a social gathering in Brooklyn. The descendants of the pilgrim fathers were in a large majority and indulging in the chronic delusion that no one else had fathers, boasted of their birth place, and asserted not only that its wooden nutmegs were the most delicious of fruits, but that it sent to all parts of the country, and to *every clime, its pioneers of civilization and exploiters of Christianity*. Dr. Bethune was present, but almost solitary and alone among so many sons of New England. In a brief speech he made, he concurred in all they said, extolling the six states, but incidentally remarked that as for himself he preferred the city and state which no one left and to which every one came. Rec*orded* faces could preserve their gravity no longer, and at this playful satire relaxed into smiles which were followed by hearty laughter.—[*Buffalo Republican.*

WATLAND UNIVERSITY.—Ground has been broken and the necessary excavations for this edifice are now being made. It is contemplated to have a demonstration of some kind, with appropriate ceremonies, at the laying of the corner stone. The Fourth of July has been proposed as the time, though no definite arrangements have as yet been made. We trust the opportunity thus offered will not be allowed to pass without that notice which so important a subject should demand. The laying of the corner stone of most institutions of this kind, as well as various others is generally regarded as an important epoch, and we doubt not it will be so considered here. The *instalments on subscription to the institution* have generally been cheerfully paid in, and it is now considered on the best of footing. A portion of the building is to be ready for use by the 1st of September.—[Beaver Dam Republican.

VALUABLE DISCOVERY.—Messrs. Edward and James M. Olark's Patent Combined Grinding and Bolting or Merchant Mill, at No. 213 Arch street Philadelphia, still continues to attract great attention among our business men and speculators, and large sales of the Patent-right of Counties and States are daily being made. The success of the invention we think is completely established. We think the trial of Friday, 13th of April, substantiates this fact. On that day it ground and converted into flour, eleven bushels of wheat in 58½ minutes, before an immense number of spectators. It can be seen in operation daily, at No. 223 Arch street, Philadelphia. Those desirous of engaging in this great enterprise, would do well to call soon and see it.—[Philadelphia Ledger.

For further particulars, *see* their advertisement, and certificates of Rood Flour inspector of *Philadelphia, in our advertising columns.*

CANADIAN LOYALTY TRIED.—Our friends across the *Niagara* have had a heavy draft made upon their devotion to the Mother Country recently. The British Ministry have sent a dispatch to the Provincial Government, politely requesting them to hand over one million acres of choice land lying between the Ottawa River and Lake Huron to be used to bait Germans to enlist into the Foreign Legion. It is proposed to give each *person 50 acres, each non-commissioned officer* 100 acres, each officer 200 acres, and 500 acres each to a few superior officers. The Canadians evince a purpose to hang on to the land, and aid the project of the Foreign Legion with their prayers only.—[Buffalo Democracy.

PLENTY OF RAIN AT LAST.—The rain which *which set in yesterday morning*, continued to fall bountifully at intervals throughout the day and last night. The thirsty earth drank it greedily as it fell. It was badly needed and has saved the crops of all this section of the state. It was worth eight dollars an acre for cultivated land, and if it extended throughout the state, it makes Wisconsin a million of dollars richer.—[Madison Democrat, May 31st.

CAPITAL HOUSE.—This excellent Hotel is now under the proprietorship of Messrs. B. Nelson, jr., of Chicago, and W. H. Russell, of Detroit, the latter gentleman having become associated with Mr. Nelson within a few days. The hotel is now in excellent order, bedrooms are clean, large and commodious, the fare first rate, and the attention prompt and polite. Mr. Russell is made) of a landlord, and with Mr. Nelson cannot fail to make the Capitol House a profitable enterprise, and the best and most popular hotel in the state.—[Madison Democrat.

THE PROGRESS OF THE SUBMARINE TELEGRAPH.—The American Telegraph Company, we learn, expect to have telegraphic communication from Europe via St. Johns, Newfoundland, to New York before the close of the season. The cable is preparing to lay down, *under the Atlantic*, a submarine cable, from St. Johns to Newfoundland, for which purpose a contract has been made with some French and English capitalists to complete the same within three years. *It links London and New York will constitute* us hourly by telegraph.—[N. Y. Evening Post.

BOILER AT THE MENASHA LAND OFFICE.—We are indebted to Col. Ryan, for the statement of sales at the Menasha Land Office during the last months of April and May, 1855.

April.	Cash Sales,	$21,217 50
	Land Warrants,	6,300 00
May	Cash Sales,	27,165 78
	Land Warrants,	5,000 00
Making a total of		$59,573 28 in two months.—[Menasha Advocate.

HON C. C. WASHBURNE.—We were pleased to meet in our city yesterday morning this staunch Republican member elect to the next Congress from the adjacent district in Wisconsin. Mr. W. visited St. Paul and St. Anthony solely on private business; but was pleased to bear home with him the news that the Republicans of Minnesota had commenced the good work, which must shortly lead to the triumph of their principles in the Territory.—[Minnesotian, May 23.

RAIN.—We have had a very refreshing shower of rain within the past 24 hours. Vegetation of all kinds look cleaner and fresher, for the wetting, spring wheat particularly which in some fields began to have a yellowish tinge will speedily outgrow its sallow complexion; looking as green and rich as our hungry eyes and brethern would like. The crop of wheat in this section, and in fact throughout the country never looked better.—[Whitewater Gazette, May 31st.

ANOTHER BREAK DOWN.—The steamer *Knepp* which left here last night for Fond du Lac, with a large load of passengers, broke her cylinder head, when within about four miles of the latter place effectually crippling her. She remained at anchor all night at the spot where the accident occurred. The steamer *Fayetona* went to her relief early this morning.—[Oshkosh Courier.

GENEROUS.—Messrs Rosier & McAllister donated one of their splendid Blocks—a corner of three-quarter French and one-quarter Spanish—to Wayland University. It is proposed to have them sold at auction at the time of the laying of the corner stone. These gentlemen intend removing to this place the coming fall.—[Beaver Dam Republican.

LUCKY.—On Breaking ground for the University Building, Mr. Alfred Loomis, the Contractor came upon a strata of limestone, which he will turn to a profitable account in the construction of the foundation walls of the building. Mr. Loomis met with a similar piece of good fortune in digging the cellar for his store on Front Street, last fall.—[Beaver Dam Republican.

German Emigrant Aid Society.

There has been formed in the city of Milwaukee a Society for the protection of German Emigrants to Wisconsin. The main object is to protect Emigrants, after their arrival in New York, against fraud and dishonesty; to transport them through the agency of the Society, by the nearest and cheapest route to Wisconsin; and to give them, on reaching Milwaukee, the necessary advice and assistance in the selection of their future homes and occupations.

Humanity has long demanded the formation of this Society, which *comprises many of the* most respectable German residents of our City and State, to protect our German countrymen from the wrongs and frauds to which almost *every emigrant is exposed from ignorance of the* laws and language of this country. The Society has accordingly appointed Mr. J. C. SCHEITZ, office No. 85, Greenwich Street, New York, and Mr. CHARLES KNODELSDORFF, office No. 263, West Water Street, Milwaukee, as their agents, whose duty it is to give, without any charge whatever, to any emigrant applying to them, all possible information and assistance in their power. The agent in New York is specially charged to procure for emigrants, coming to Wisconsin, passage tickets at the fixed prices and to send on their baggage by the best and cheapest route to its destination. By this precaution, all emigrants bound to Wisconsin will be secured against frauds, in buying tickets, and will be ensured also the safe delivery of their baggage.

The duty of the agent in Milwaukee is to receive and prosecute all complaints, made by emigrants, of frauds practised upon, or wrongs done to them; to give them information as to the best localities *for settlement—to procure employment* for those who need it—to give material aid to *the helpless; and where emigrants are going far*ther, to advise them as to the route and the cost of the journey.

The Society hopes that all friends of humanity will aid them in accomplishing this object.

Slander upon Protestant Clergymen.

(From the Savannah Republican.)

The Roman Catholic Provincial Council, composed of the Hierarchy of the Church, and representing the Sees of Baltimore, Wheeling, Pittsburgh, Richmond, Philadelphia and Erie, assembled in Baltimore, the 9th inst. During the second day of the session, the Rev. John McCaffrey D. D., President of Mount St. Mary's College, Emmittsburg, Md. preached a discourse which we find published in the Baltimore Sun of the 11th inst. Our attention has been called to the following paragraph of the discourse:

"He would now allude to the Right Rev. Dr. Barron. He was a foreigner, a member of a wealthy and aristocratic family, and left all that was dear to the hearts of men, and declined the *attractions of the eternal city in order to come* to America and labor in the cause of missions.—Wherever his services were most needed, there he labored—until he found, at Savannah, the close of a life as glorious as his death was triumphant. He reached that city when the yellow fever was raging; and whilst *a host of other ministers cowardly ran away from the scenes of danger*. he was at his post—nobly doing his duty.

"He was shortly afterwards followed to the grave by the Right Rev. Francis X. Gartland, D. D., Bishop of Savannah. He began his priestly life in Philadelphia, when the Asiatic scourge made its first appearance, halting the pestilential breath of sickness on the very day of his ordination. Nor were his devoted labors confined *to his own household of faith. He was at the bedside of dying Protestants, whose ministers had fled from their field of duty.*"

In regard to Bishops Barron and Gartland, it affords us pleasure to say, that so far as our knowledge extends, they, as well as other-*resident* Roman Catholic priests, did their whole duty to their flock. They were engaged day and *night in visiting their sick, and administering* consolation to their duty. This is notorious and is cheerfully acknowledged. *But we have yet to learn that they offered any attentions whatever to persons of the Protestant faith.* Indeed, they could hardly have done so, as their time was almost wholly occupied with their own people, who were greater sufferers than the native Protestant population. *It is well known, however, that Protestant clergymen did give every attention in their power to persons of the Roman Catholic persuasion.*

As to the charge that Protestant ministers "cowardly ran away from the scenes of danger," and "fled from their field of duty," we pronounce it, upon our own personal knowledge, *an unmitigated slander, without one particle of truth to sustain it.* We remained in the city until the epidemic had spent its fury—long after the death of Bishops Barron and Gartland—and know that not one Protestant clergyman left after the appearance of the fever. They all continued at the post of duty and danger, as became Christian heroes, and every one of them, with a solitary *exception*, had the fever.

These are facts known to thousands, and cannot be denied, and being such, we call upon the Baltimore press to give the Protestant clergy of Savannah the benefit of them.

The Poisoning Case at Juneau.

The proprietor of the Juneau House, has addressed us the following statement, which will give all the particulars of the unfortunate accident that recently took place there:

Juneau, May 26th, 1855.

FRIEND BALLOU.—I wish to give you the statement of the facts in regard to the poisoning in my house last Friday morning, knowing that in all such cases, there are many ways of telling the story. Four young men, three from Horicon and one a resident of this place, attended the party at my house last Thursday evening, and at about two in the morning, called for Champagne. I had none, but they procured of the former proprietor two pint bottles, and proceeded to the third story, to discuss its merits. Before going into the room they missed one of their party, and deposited their bottles on the wood box at the end of the hall, and returned for him. found him, and went back, took out their bottles, as they supposed, went to their room, uncorked and poured out from one; all drank from it, when they found that they were poisoned.

I had procured a bottle of Corrosive Sublimate only the day before while on my visit to Watertown, of E. Johnson, which was properly put up and labeled in large plain letters *Poison*, this I gave to the girl having charge of the chamber, to destroy bed-bugs, told her what it was, and desired her to put it in some safe place. She put it into the wood box previously described, supposing that no one would ever interfere with it in that retired spot, but as all luck would have it, they took this bottle instead of one which they deposited there, and did not discover the mistake until all had drank of the contents. The rest you already know, but I am happy to state they are all in a fair way of recovery.

Truly Yours, S. S. HARRINGTON.

—[Watertown Democrat.

WHAT'S PARTNERSHIP THIS FOR.—The following letter is from the Mr. T. B. Eddy, one of the editors of the *Michigan Farmer*, who has been on a visit to the Southern States:

A late excursion through the counties of Red River, Arkansas and Lafayette, has enabled me to make a pretty general observation of the ravages of the fly. In Arkansas county large fields of wheat have been entirely destroyed that they have been plowed for other crops, this is particularly the case on Grand Prairie. Other fields of wheat have been seriously damaged, and present the appearance of having had a fire through them. The early sown wheat and that on the Prairie as we were informed has suffered most. We conversed with many intelligent cultivators at *Kalamazoo and Marshall, and all agree, that from* harvest prospect, the average crops cannot exceed from five to ten bushels per acre.

The *fly is still* at work and what *further* damage will be done time alone will determine. We did not learn in any case that the Mediterranean wheat had been injured.

The prospects for wheat is not any more promising in the county of Calhoun and the West of Jackson, and from men who are well posted on the subject, we obtain the same unfavorable report. Thus in the short space of a few weeks the fine promising fields of wheat have been scathed by the dire formidable foe to wheat and whose depredations are not easily prevented.—[Detroit Inquirer, May 30th.

THE CRIMEAN TELEGRAPH.—A London paper says:

Under the dark and foggy Euxine, the wire runs from Balaklava to the bold headland of Kalakra, which juts out into the sea about 14 miles north-east of Varna. From this point, it is carried along the shoals to the mainland, about six miles from the town, and thence it is buried underground to the station near the house of the British consul. It is as yet uncertain how the use of the submarine will be granted to individuals. This depends entirely on the English government, who have laid down this part of the line and have its entire management. There are at present four telegraph stations between Varna and Paris, those will be reduced to three by the junction of Rentchuck and Giurgevo, when there is every reason to believe that intelligence from the Crimea will be communicated in two hours to the cabinets of Paris and London.

AN IMPORTANT DECISION.—The General Land Office decides that small lakes or ponds are not embraced in the grant by the swamp land acts of 1840 and 1850.—[Washington Star,

CIRCUIT COURT—May 31.

JUDGE HUBBELL, PRESIDING.

In the Circuit Court yesterday, the forenoon was occupied with the disposal of chancery cases. In the afternoon a motion was made for a new trial in the case of the State vs. John Goodman, indicted, tried and convicted of an assault with intent to kill.

The reasons assigned for a new trial were, 1st, that the verdict was contrary to the evidence and the law. 2d, was that of newly discovered evidence, not known at the time of the trial, tending to show that the defendant, at the time of committing the alleged act, was laboring under mental derangement, was irresponsible. The last point was substantiated by several affidavits stating that about three years since, the defendant was kicked on the head by a horse, receiving a contusion of the brain; and further describing, at different times, strange and unaccountable conduct by the defendant, and that, in the opinion of the affiants, the defendant was at times, and especially when excited to anger, deranged.

One affidavit, of a German Physician, who attended the defendant at the time he was kicked, set forth that the physician informed the parents of the *defendant* that he would probably be at times deranged. The motion for a new trial was resisted; J. E. Arnold for defendant. District Attorney for State.

George Santee was admitted to bail until the next term of the Court, in the sum of $1000, parties from Kenosha going his bail; he was discharged.

John Goodman was also admitted to bail.

Catharine Egan, convicted of adultery, will be sentenced this morning.

DRAMATIC READINGS.—Mrs. Macready will give her promised *entertainment at Young's Hall* on Monday evening, and will, we do not doubt, attract a crowded house. We hope, by the way, that the hall will be properly cleansed and ventilated for the occasion. It was neither on the night of Mr. Collins' concert.

FOURTH OF JULY.—We observe that in many of our sister cities preparations are already begun to celebrate the next Anniversary of American Independence. It is a long time since this National Holiday has been fitly honored in Milwaukee. Cannot we have an old fashioned celebration this year? Suppose the City fathers appoint a Committee, on Monday evening, to take the business in hand.

YOUNG'S HALL.—Great complaints are made by numerous persons who are in the habit of attending concerts and other entertainments at Young's Hall, of the condition in which it is kept. The gas apparatus is defective somehow, and there is frequently either a deficiency of light, or a redundancy of odors not of the kind from "Araby the blest." There is also a great want of cleanliness, the floor and seats being often in a condition unfit for use by civilized people. The proprietor will serve his own interest by attending to these things forthwith.

THINGS WORTH KNOWING.—Where the building is, among all the new ones erected since last August, in which paragraph IV of Sec. 2 of the Fire Limits Ordinance has been complied with.

Where the Inspector of Buildings is.

How long the Aldermen of the Third Ward mean to leave their half of the west crossing of Wisconsin street, on East Water street, without plank or stone. It is a disgrace to them to their Ward, and to the city. Won't somebody erect a sign-post in the middle of the street, with a hand pointing south, with the inscription "THIRD WARD?"

How long before the same Aldermen mean to have the sidewalks along the west side of East Water street, between Wisconsin and Michigan streets, placed on the grade.

How long *before some* of them will break their necks on the stone steps in that sidewalk, and *see the city for the value thereof.*

BUILDING ON MARKET SQUARE.—We learn from Mr. A. H. BIELFELD, who is putting up the building on Market Square, to which we yesterday invited the attention of Inspector Page, that it is to be of *one* story only, and temporary at that—it being his design, when the leases of the adjoining tenements run out, two years hence, to construct a substantial four story brick block on these lots. We understood Mr. Bielfield to add, that the present structure is to be of wood above the foundation wall; but we don't see how that can be done under the Fire Ordinance.

GERMAN EMIGRANT AID SOCIETY.—A society has been established in this city for the protection of German emigrants, landing in New York and bound to Wisconsin. A correspondent furnishes us with a brief statement of its objects and organization, which are altogether commendable, and with which we hope prove effectual in guarding emigrants from the hands and villainy by which they are often victimized, on their way from the Atlantic seaboard to the interior.

FOR BELLEVUE.—The str *Lady Elgin* will *leave this port for Collingwood Sunday morning* at 9 o'clock. The *Lady Elgin* is known as one of the best boats on the Lakes having superior accommodations for passengers. For passage, apply to O. D. COLBY, three doors from the American Express Company's office, on Huron street.

QUICK TRIP AROUND.—The fine schooner *Republic* Capt Wm. Cross, *arrived from Buffalo* yesterday afternoon, having made the round trip down and back, with full cargoes each way, in 21 days. Capt. Cross is putting his handsome craft to her paces this year.

YOUNG MEN'S ASSOCIATION.—This Institution of our city is becoming every day more valuable. We observe among the recent additions to the Library several rare books, such as probably are not to be found elsewhere in town; and we learn that it is contemplated to add to the attractions of the Reading Room by furnishing the table regularly with the *London Times*, the world known "Thunderer," and "*Galignani's Messenger.*"

FINE AS JUNE.—Summer made its advent yesterday in a north-east storm and drizzling rain which, tho' not specially agreeable to pedestrians, was welcome enough to farmers. The cool weather is more propitious for the crops.

WHITE WINTER WHEAT FOR OSWEGO.—The Schooner *Empire State* is taking on at Armstrong's warehouse, 4,500 bus of white winter wheat, the first of that quality ever sent to Oswego. It is owned by Mr. B. STAATS, of that city.

SPLENDID PICTURES.—Two most elegant pictures, one the "*Descent from the Cross*," the other a portrait of Shakespeare, "may be seen in the window of Arnold's Book Store to-day. They are painted in oil colors and are almost equal to the original paintings of which they are fac similes.

CHOICE FURNITURE AT AUCTION.—HOOD will sell at his Auction Rooms, this morning, at 10 o'clock, some very choice Rosewood Furniture, by order of the Sheriff.

A GOOD APPOINTMENT.—JAMES T. BARDEMAN has been appointed route agent on the Milwaukee and Mississippi Rail Road in the place of GEORGE CHURCH, resigned.

CONCERT HALL.—This Hall, (the old Methodist Church on Spring St.) has been fitted up by Messrs. LYNE & VAN LIEW for a theatre, and will open next week.

LIME.—It will be seen, by their notice that Messrs. W. WATKINS & Co., have purchased the business of P. C. Hale in the manufacture of superior lime, and established a place of shipment, near Spring St. Bridge.

VOLUME XI. MILWAUKEE DAILY SENTINEL. NEW SERIES.

THE DAILY SENTINEL.

Rufus King, Wm. H Watson & John S. Hillmore, PROPRIETORS.

OFFICE OF THE NAME AND FIRM OF

RUFUS KING & CO.

Saturday Morning, June 2.

BOARD OF TRADE MEETING—STRAIGHT CUT.—In our article Thursday, relative to the Board of Trade meeting and the Straight Cut, we stated that a motion offered by Mr. KILBOURN, requesting the city to issue more bonds in advance to the contractor, was opposed by Mr. Medbery, on the ground that the city was already in advance, and was held on the table. Our informant, it appears, labored under a misapprehension on this subject. Mr. Kilbourn offered no resolution, of any kind, but at the request of a member of the Board, embodied in the form of resolutions the substance of the propositions made by him for expediting the work on the Straight Cut. The adoption of these was moved by Dr. WORK; the first one carried, as already stated, and the second laid on the table, on Mr. MEDBERY'S motion. This last proposed that the city should negotiate their bonds thro' an agent appointed for the purpose, so that Mr. HAWLEY could obtain his pay promptly on the estimates for work done. It further appears that the city is not in advance to Mr. HAWLEY for work done on the Straight Cut. The amount received by him is bonds to $21 000, and the estimated amount of work, materials, &c., $35,000.

The Common Council meet on Monday evening next, as we learn, to consider and dispose of the vexed question. We must again express our belief that it is in their power to ensure the early completion of this new Harbor, and we hope they will act accordingly.

☞ We had the pleasure of a call, yesterday, from the Hon. O. D. MATTESON, for several years past the Representative in Congress from the Oneida District, N. Y., and a member elect of the next House. He has been spending a week, or more, at Madison and Janesville and is delighted with all that he has seen of Wisconsin.

IRON MATTERS.—We regret that the assurances of the Milwaukee papers that the Mails between that place and Chicago were about to be carried over the railroad and more rapidly than they are to between Monday and Friday, are not likely to be at once realized. Orders from the authorities at Washington, authorising the change, have been received. The only change which has been made is that of the hour before afternoon southern mail to be carried, but a change which don't strike us as much of an improvement.—[Kenosha Telegraph.

That is very much what we think here. Before this has been driven off an arrangement had been entered into for carrying the mails twice a day, between Milwaukee and Chicago. Now, however, for the day line has been withdrawn and the business transferred to the Rail Road, we get but one mail a day and that 18 hours behind time. In the fine age, such an advance backwards is intolerable. The Lake Shore Rail Road would make friends and money by carrying the mail for *nothing*, rather than be a party to the present "find fault" arrangement. Let them behave like men, as a matter of accommodation to the public, and settle the terms with the P. O. authorities afterwards.

Proceedings of Board of Freeholders

Election News.

Lowiency, Wednesday, May 23.

The special election for Representatives to the Legislature, to fill the vacancy made such by informal proceedings on the 30th March, was held on the 22d inst., agreeably to the Governor's proclamation, which resulted in the election of the Free Soil candidate in the Lawrence district as follows:

Philip F Fowler	288 votes
John Hutchinson	283 "
Erastus D Hand	286 "
Scattering about	20 "

Everything passed off quietly, and without interruption from non-residents. There appeared to be but little interest taken in the election outside of Lawrence. This probably, arose from the fact that the season is yet *amply* late, and farmers were busy preparing for planting.

The Free Soil gains were from persons who to gratify a personal pique, strengthened the hands of the opponents of the dove by throwing away their votes.

The whole number of voters in this district was 900 at the census in February.

The result, as the S. C. *Herald*, will be gratified to learn from the above announcement that our attentive and clever Fort Kansas correspondent, Mr. E. D. LAND, for several years a resident of this city, is a member elect to the first Legislature of the new Territory. Mr. LAND will make a useful addition to the number, and may be relied upon, on all questions, to stand up for Freedom and Free Institutions and to resist to the uttermost the aggressions of the Slavery Propagandists. At the last trial in the Lawrence precinct the Missouri border-ruffians polled 750 votes; so 251 are for the "Free State" ticket. But Gov. REEDER having set aside that election for fraud, and ordered a new one, ATCHISON and his gang failed to appear the second time and the "Free State" ticket was elected without opposition.

DES MOINES RIVER IMPROVEMENTS.—The contracts for the improvement of the Des Moines river, Iowa, have been let. The locks are to be two hundred feet long, being twenty-five feet longer than any originally contemplated by the State of Iowa, and large enough to pass the largest class of boats usually navigating the Upper Mississippi, be completed to Fort Des Moines, (a distance of two hundred and four miles above the confluence of the Des Moines with the Mississippi,) on the 1st July, 1856; but a considerable portion of the work will be navigable for steamboats, and an immense amount for water-power created, a much earlier period.

ACTIVE MOVEMENTS.—The Spirit Rappers here recently assembled themselves with a prediction, which, if it should be realized, would be likely to prejudice to some extent, the position of this part of the country in the eyes of the world. They say that, by means of an earthquake, a flood is to come shortly which will sweep off all the northwestern and central settled portion of the United States, into the Gulf of Mexico. The earthquake is to break up the rocky ridge which retains Lake Superior in place, and "let it out."

NEW HAMPSHIRE.—The Legislature of New Hampshire will meet on the 5th of June. The most important business of the session will be the election of two Senators in Congress—one for a full term, the other to fill the vacancy occasioned by the death of Mr. *Upham*.

LA CROSSE & MILWAUKEE R. R.—The Beaver Dam *Republican* says that the company has purchased iron sufficient to lay the track to Noyce's Corners, four miles from that village, and a meeting of the friends of the road had been called to take measures to helping it along. *Pull* from that end, neighbors! *We'll push* from *this* end.

IMPRISONMENT FOR DEBT ABOLISHED.—The Boston *Atlas* exclaims that the late Massachusetts legislature should have credit for at least one good act—the passage of a bill abolishing imprisonment for debt. We believe South Carolina is now the only state whose statute books are disgraced by a law imprisoning debtors.

FLOURING MILL BURNT.—The Flouring Mill of F. Schaaf & Son, at Jerseyville, Illinois, was destroyed by fire on the 20th ult. and one of the sons of the senior partner perished in the flames. About 200 bbls Flour and 1300 bushels of wheat were consumed with the mill. Loss $12,000, insured in the St. Louis Company $4000.

PICKING OAKUM BY UNITED STATES PRISONERS.—Judge Giles, in the United States District Court at Baltimore recently decided that there was no law or authority to compel prisoners of the United States courts, sentenced to the jail for punishment, to pick oakum or do any work whatever.

NEW LINE OF STEAMERS.—The Bostonians are about to form a line of propeller steamers between their city and St. Johns.

Correspondence of the Sentinel.

NORTHERN IOWA.

RICHMOND PLACE, Rock Prairie, } May 29th 1855. }

DEAR SENTINEL:—

It is certainly true that no state in this Union is more prosperous, healthier, or has a more delightful climate than your own favorite Wisconsin. You are young in years—but far advanced in moral progression. In agricultural prosperity, public enterprise, intellectual worth, and in the Freedom-loving sentiment of her people, Wisconsin is unrivalled. Yet, in the same latitude west of the Mississippi, there is a country of vast magnitude, whose resources are undeveloped, with advantages fully equal to your state. This territory is now rapidly filling up with an intelligent class of settlers, who go out well prepared to carry on all branches of business. Did the people of the Eastern states *really know* the advantages of a genial atmosphere, productive soil, pure water, and a full supply *by Nature's* hands, over the pent-up condition, impure air, and poverty-*suffering* circumstances surrounding city life, how quickly would our Eastern cities depopulate, and our Western prairies "blossom as the rose."

The Milwaukee & Mississippi Railroad is gradually pointing its course toward this delightful country, and may God speed the day when it shall be completed, and convey from thence the surplus products of the soil, which will be received in exchange for the car loads of emigrants seeking homes. This road when completed to Northern Iowa, will strike the heart of a magnificent country. The counties of Alamakee, Winneshiek, Fayette, and Clayton, lying directly in the north-east corner of Iowa, bordering on the Mississippi sixty miles, and extending back fifty, comprise an area of some three thousand square miles of country, which, in fertility of soil, salubrity of climate, fine timber, pure spring water, beautiful prairies, and easy access to market, cannot be surpassed *anywhere in the* Western World. There are yet thousands of acres of government land in *these counties* selling at $1 and $1,25 per acre, which in five years will probably be worth $5 - and also good improved farms can now be purchased at $10 per acre, which will doubtless double in value in that time, provided the Milwaukee & Mississippi Railroad is *completed* to Prairie Du Chien before the close of 1856, as now contemplated.

The country bordering on the Mississippi presents a rough, broken appearance, and it is impossible to obtain a correct impression in regard to its true features, unless you penetrate the interior, and bring to view the grand panorama of Groves, Prairies, Rivulets and Forests, that extend in the distance. This vicinity needs no flattering representations in behalf of its merits. Give it a fair test and it will recommend itself. And I would advise all who contemplate a visit westward to take passage at Dbuque in one of those fine Packet Boats that ply daily from all ports below to Saint Paul, and branch out into the country by stopping either at Guttenburg, Clayton City, or McGregor's Landing in Clayton Co., or at Columbus and Lansing in Allamakee, where they will find stages and coaches ready to convey them to any point *in the interior*. At Decorah the County Town of Winneshiek, a very flourishing *village* on the Upper Iowa River, you will find stages running directly to Saint Paul, when the Steam Boat will again relieve the monotony and fatigue attending a land journey of 200 miles. I have hardly time, even to enumerate, much less to give the characteristics of the fine Towns of Garnaville, Elkader and Monona in Clayton County; of West Union, Albany and Auburn in Fayette; of Waukon, Makee, Waterville, Hardin and Lybrand in Allamakee; of Decorah, Freeport, Frankville, Moneek, Calmar and Burr Oak in Winneshiek; all of which are flourishing places and bid fair to be points of considerable importance. These villages, and many others not named, will be seen by the traveller making the trip which I have just described. From some five years' experience west of the Mississippi, I have had *ample opportunity* to judge of the merits of different localities, and I can truly say to the *emigrant* if you wish to enjoy good health, prosperous circumstances, pure spring water, a wholesome atmosphere, intelligent neighbors, and a contented mind, seek you a home in Northern Iowa.

Yours, Fraternally, A. B W

MISREPRESENTATION CORRECTED.—The Madison papers gave currency, last week, to the story that the M. & M. R. R. Company had *refused to bring* freight from Alton, which had been left *there* by the Beloit & Madison R. R Co., and indulged in various strictures thereupon. It now appears that there was no truth in the story and the Madison *Patriot* thus corrects it:

We are happy *to state that the above was an* error, and that during the month past, they have paid that road over $2000 for back charges, and expect to pay them a good many more. Furthermore we believe that there is a good business feeling between the two roads, and Mr. Darwin, the Agent here, informs us that they have never refused freight from any road. We are happy to stand corrected.

BUSINESS AT THE SUSPENSION BRIDGE.—A correspondent of the Buffalo *Republic*, writing from the Niagara Suspension Bridge, under date of the 24th inst., says that the business at the bridge is immense. The goods passing over it, for the month ending the 5th inst., were valued, by customs rules, at *ten millions of dollars!* Forty-five trains of cars, passenger and freight, arrive at the Bridge daily, over the different roads there terminating. On the 23d inst., seventy-one loaded passenger cars arrived at the Bridge, and about the same number departed.

DEATH OF AN OLD SETTLER.—Thomas McCarney, Esq., one of the first settlers of Iowa, and a highly esteemed gentleman, died at Dubuque on the 24th ult. He built the first house ever erected in the now city of Dubuque and settled the first white family on the west side of the river above Keokuk. He was also a member of the first General Assembly of the Territory of Wisconsin, in which Iowa was then included, and was elected one of the delegates to form the Iowa State Constitution.

EXPENSIVE RAILROADING.—*The Americans* who own and run the Copiapo Railroad in Chili, South America, are obliged to distil sea water for the use of their engines, at a cost of 2c per gallon, as they find that the water of the country deposits lime in the boilers at the rate of ¼ inch per day. Its track is 75 miles long. Fifty miles of it is from Copiapo up into the mountains—twenty of which traverses the desert of Atacama, where there is not a drop of water, and where, consequently, beasts of draught and burden suffer and too frequently perish. Freight for these 50 miles is $10 per ton. The passenger fare is $1,25

EDINBURGH REVIEW.—We are indebted to ARCHIBALD WILSON, 175 East Water St., for an early copy of Leonard Scott & Co's, republication of the Edinburgh Review for April. The leading articles in this sterling periodical are, "Slavery in the U. S.," "*Travels in Siberia*," "M. Huc's travels in China," "the Chemistry of *Common Life*," "the Autocracy of the Czars," and "Army Reform." The Edinburgh is furnished to subscribers at $3,00 a year. It is a very able quarterly.

☞ We hear that within the last day or two several Chicago gentlemen have shown their good taste *by purchasing sites for summer* residences in and near Racine. The Lake Shore Rail Road will make is an easy matter for men of means to reside in Wisconsin, while doing business in Chicago.

SAUK CO., STANDARD.—Mr. A. G. HOLT has retired from the Sauk Co. *Standard*, and is succeeded by Messrs. VICTOR E. PECK and JAMES L. DENNIS.

ENJOINED.—The Ann Arbor *Argus* of the 25th says: We are *informed* that the *Bank* of Washtenaw was enjoined, on Tuesday of this week, by order of the Hon. Judge Johnson, "from the exercise of any of its corporate rights and privileges." The complainants, we understand, are Messrs. Bach, Thompson & Co., and D Hensing, of this city. We presume the Bank will now be wound up.—[Detroit Tribune.

SUPREME COURT.

10th DAY OF THE TERM.

May 31st, 1855.

John E. Cowles et al, plaintiffs in error, vs. Benj. McVicker, defendant in error. Opinion by Justice Smith. Judgment of court below affirmed with costs.

Thomas D. Bond, plaintiff *in error*, vs. James Morris et al, defendants in error. Continued under advisement.

Peter W. Peb, plaintiff in error, vs. Jameson Hamilton, defendant in error. Continued under advisement.

Joseph Bancroft, appellee, vs Henry W. McCauley, impleaded &c., appellants. Continued under advisement.

State of Wisconsin ex rel. Geo. P. Delaphaine vs the Commissioners of School and University Land. Continued under advisement.

The Attorney of the State being absent, E. M. Hunter Esq., a counsellor of this court, gave the court to be informed that on the 27th inst., the Hon. Hiram A Wright, late Superintendent of Public Instruction, departed this life, at his residence at Prairie du Chien. And in token of respect for the memory of the deceased, the court adjourned for one day, and directed these proceedings to be entered upon the records of the court. —[Madison Journal.

ST. AMER SEBASTOPOL.—A new steamer, intended to run in the upper lake trade, has just been completed at the ship yard of L. Moses, in Cleveland. She bears the *appropriate* name of *Sebastopol*. For strength and capacity, says the *Plain dealer*, she is not surpassed by any craft in that trade on the lakes. Her engine was manufactured at the Cuyahoga Works, has 32 inch cylinder, 11 feet stroke of piston, and is rated at 800 horse power. The wheels are 30 feet in diameter. She is about 830 tons capacity, and with all her machinery, draws but four and a half feet water, and with full cargo will not exceed eight and a half feet draught. No lighting over shoalwater, on the St. Clair Flats can be apprehended. She cost about $60,000.

A FAIR REPORT.—The New York correspondent of the Albany *Express* gives us a *bon mot* of Dr Bethune, worth preserving. Just before the late anniversaries closed, the reverend gentry and *the demi-semi-reverends* that trained after them, had a social gathering in Brooklyn. The descendants of the pilgrim fathers were in a large majority and indulging in the chronic delusion that no one else had fathers, boasted of their birth place, and asserted not only that its wooden nutmegs were the most delicious of fruits, but that it sent to all parts of the country, and to *every clime, its pioneers of civilization* and exponents of Christianity. Dr. Bethune was present, but almost solitary and alone among so many sons of New England. In a brief speech he made, he concurred in all they said, extolling the six states, but laconically remarked that as for himself he preferred the city and state which he once left and to which every one came. Reverend faces could preserve their gravity no longer, and at this playful satire relaxed into smiles which were followed by hearty laughter.—[Buffalo Republican.

WATLAND UNIVERSITY.—Ground has been broken and the necessary excavations for this edifice are now being made. It is contemplated to have a demonstration of some kind, with appropriate ceremonies, at the laying of the corner stone. The Fourth of July has been proposed as the time, though no definite arrangements have as yet been made. We trust the opportunity thus offered will not be allowed to pass without that notice which so important a subject should demand. The laying of the corner stone of most institutions of this kind, as well as various others is generally regarded as an important epoch, and we doubt not it will be so considered here. The instalments on subscription to the institution have generally been cheerfully paid in, and it is now considered on the best of footing. A portion of the building is to be ready for use by the 1st of September.—[Beaver Dam Republican.

VALUABLE DISCOVERY.—Messrs. Edward and James M. Clark's Patent Combined Grinding and Bolting or Merchant Mill, at No. 213 Arch street Philadelphia, still continues to attract great attention among our business men and speculators, and large sales of the Patent-right of Counties and States are daily being made. The success of the invention we think is completely established. We think the trial of Friday, 13th of April, substantiates this fact. On that day it ground and converted into flour, eleven bushels of wheat in 581.2 minutes, before an immense number of spectators. It can be seen in operation daily, at No. 223 Arch street, Philadelphia. Those desirous of engaging in this great enterprise, would do well to call soon and see it.—[Philadelphia Ledger.

For further particulars, *see* their advertisement, and certificates of Head Flour inspector of *Philadelphia, in our advertising columns.*

CANADIAN LOYALTY TAXED.—Our friends across the *Niagara* have had a *heavy draft* made upon their devotion to the Mother Country recently. The British Ministry have sent a dispatch to the Provincial Government, politely requesting them to hand over one million acres of choice land lying between the Ottawa River and Lake Huron to be used to bait Germans to enlist into the Foreign Legion. It is proposed to give each person 50 *acres, each non-commissioned officer* 100 acres, each officer 200 acres, and 500 acres each to a few superior officers. The Canadians by race appear to have a right to the land, and aid the project of the Foreign Legion with their prayers only.—[Buffalo Democracy.

PLENTY OF RAIN AT LAST.—The rain which *we left not in yesterday morning* continued to fall bountifully at intervals throughout the day and last night. The thirsty earth drank it greedily as it fell. It was badly needed and has saved the crops of all this section of the state. It was worth eight dollars an acre for cultivated land, and if it extended throughout the state, it makes Wisconsin a million of dollars richer.—[Madison Democrat, May 31st.

CAPITAL HOUSE.—This excellent Hotel is now under the proprietorship of Messrs. B. *Nelson*, jr., of Chicago, and W. H. Russell, of Detroit, the latter gentleman having become associated with Mr. Nelson within a few days. The hotel is now in excellent order, the rooms are clean, large and commodious, the fare first rate, and the attention prompt and polite. Mr. Russell is a model of a landlord, and with Mr. Nelson cannot fail to make the Capital House a profitable enterprise, and the best and most popular hotel in the state.—[Madison Democrat.

THE PROGRESS OF THE SUBMARINE TELEGRAPH.—The American Telegraph Company have been, or pect to have telegraphic communication from Europe via St. Johns, Newfoundland, to New York before the close of the season. The company is preparing to lay down, *under the Atlantic*, submarine cable, from St. Johns to Newfoundland, for which purpose a contract has been made with some French and English boat soon to complete the same within these years. In 1854 *London and New York* were connected bodily by telegraph.—[N. Y. Evening Post

HON. C. C. WAUBURNE.—We were pleased to meet in our city yesterday morning this staunch Republican member elect to the next Congress from the unjacent district in Wisconsin. Mr. W. visited St. Paul and St. Anthony solely on private business, but was pressed to bear home with him the news that the Republicans of Minnesota had commenced the good work, which must shortly lead to the triumph of their principles in the Territory.—[Minnesotian, May 23.

RAIN.—We have had a very refreshing shower of rain within the past 24 hours. Vegetation of all kinds look cleaner and fresher, for the wetting, spring wheat particularly which in some fields began to have a yellowish tinge will speedily outgrow its sallow complexion looking as green and rich as our hungry eastern brethren would like. The crop of wheat in this section, and in fact throughout the country never looked better.—[Whitewater Gazette, May 31st.

ANOTHER BREAK DOWN.—The steamer *Knapp* which left here last night for Fond du Lac, with a large load of passengers, broke her cylinder head, when within about four miles of the latter place effectually crippling her. She remained at anchor all night at the spot where the accident occurred. The steamer *Fayetona* went to her relief early this *morning*.—[Oshkosh Courier.

GENEROUS.—Messrs. Bosley & Mallister donated one of their splendid Blocks—a cross of three-quarter French and one-quarter Spanish—to Wayland University. It is proposed to have it sold at auction at the time of the laying of the corner stone. These gentlemen intend removing to this place the coming fall.—[Beaver Dam Republican.

LIGHT.—On Breaking ground for the University Building, Mr. Alfred Loomis, the Contractor came upon a strata of limestone, which he will turn to a profitable account in the construction of the foundation walls of the building. Mr. Loomis met with a similar piece of good fortune in digging the cellar for his store on Front Street, last fall.—[Beaver Dam Republican.

German Emigrant Aid Society.

There has been formed in the city of Milwaukee a Society for the protection of German Emigrants to Wisconsin. The main object is to protect Emigrants, after their arrival in New York against fraud and dishonesty; to transport them through the agency of the Society, by the nearest and cheapest route to Wisconsin; and to give them, on reaching Milwaukee, the necessary advice and assistance, in the selection of their future homes and occupations.

Humanity has long demanded the formation of this Society, which *comprises many* of the most respectable German residents of our City and State, *to protect our German countrymen* from the wrongs and frauds to which almost *every emigrant* is exposed from ignorance of the laws and language of this country. The Society has accordingly appointed Mr. J. C. SCHEITZ, office No. 85, Greenwich Street, New York, and Mr. CHARLES KNOBELSDORFF, office No. 263, West Water Street, Milwaukee, as their agents, whose duty it is to give, without any charge whatever, to any emigrant applying to them, all possible information and assistance in their power. The agent in New York is specially charged to procure for emigrants, coming to Wisconsin, passage tickets at the fixed prices and to send on their baggage by the best and cheapest route to its destination. By this precaution, all emigrants bound to Wisconsin will be secured against frauds, in buying tickets, and will be ensured also the safe delivery of their baggage.

The duty of the agent in Milwaukee is to receive and prosecute all complaints, made by emigrants, of frauds practised upon, or wrongs done to them; to give them information as to the best localities for settlement—to procure employment for those who need it—to give material aid to the *helpless*; and where *emigrants are going farther*, to advise them as to the route and the cost of the journey.

The Society hopes that all friends of humanity will aid them in accomplishing this object.

Slander upon Protestant Clergymen.

(From the Savannah Republican.)

The Roman Catholic Provincial Council, composed of the Hierarchy of the Church, and representing the Sees of Baltimore, Wheeling, Pittsburgh, Richmond, Philadelphia and Erie, assembled in Baltimore, the 9th inst. During the second day of the session, the Rev. John McCaffrey D. D., President of Mount St. Mary's College, Emmitsburg, Md. preached a discourse which we find published in the Baltimore Sun of the 11th inst. Our attention has been called to the following paragraph of the discourse:

"He would now allude to the Right Rev. Dr. Barron. He was a foreigner, a member of a wealthy and aristocratic family, and left all that was dear to the hearts of men, and declined the *attractions of the eternal city* in order to come to America and labor in the cause of missions.—Wherever his services were most needed, there he labored—until he found, at Savannah, the close of a life as glorious as his death was triumphant. He reached that city when the yellow fever was raging; and whilst *a host of other ministers cowardly ran away from the scene of danger*, he was at his post—*nobly doing his duty*.

"He was shortly afterwards followed to the grave by the Right Rev. Francis X. Gartland, D. D., Bishop of Savannah. He began his priestly life in Philadelphia, when the Asiatic scourge made its first appearance, inhaling the pestilential breath of sickness on the very day of his ordination. Nor were his devoted labors confined to *his own household of faith. He was at the bedside of dying Protestants, whose ministers had fled from their field of duty.*"

In regard to Bishops Barron and Gartland, it affords us pleasure to say, that so far as our knowledge extends, they, as well as other-*resident* Roman Catholic priests, did their whole duty to their flock. They were engaged day and night *in visiting their sick*, and *administering* consolation to their duty. This is notorious and is cheerfully acknowledged. *But we have yet to learn that they offered any attentions whatever to persons of the Protestant faith.* Indeed, they could hardly have done so, as their time was almost wholly occupied with their own people, who were greater sufferers than the native Protestant population. *It is well known, however, that Protestant clergymen did give every attention in their power to persons of the Roman Catholic persuasion.*

As to the charge that Protestant ministers "cowardly ran away from the scenes of danger," and "fled from their field of duty," we pronounce it, upon our own personal knowledge, *an unmitigated slander, without one particle of truth to sustain it.* We remained in the city until the epidemic had spent it the fury—long after the death of Bishops Barron and Gartland—and know that not one Protestant clergyman left after the appearance of the fever. They all continued at the post of duty and danger, as became Christian heroes, and every one of them, with a solitary exception, had the fever.

These are facts known to thousands, and cannot be denied, and being such, we call upon the Baltimore press to give the Protestant clergy of Savannah the benefit of them.

The Poisoning Case at Juneau.

The proprietor of the Juneau House, has addressed us the following statement, which will give all the particulars of the unfortunate incident that recently took place there:

Juneau, May 26th, 1855.

FRIEND BALLOU.—I wish to give you the statement of the facts in regard to the poisoning in my house last Friday morning, knowing that in all such cases, there are many ways of telling the story. Four young men, three from Hurison and one a resident of this place, attended the party at my house last Thursday evening, and at about two in the morning, called for Champagne. I had none, but they procured of the former proprietor two pint bottles, and proceeded to the third story, to discuss its merits. Before going into the room they missed one of their party, and deposited their bottles on the wood box at the end of the hall, and returned for him, found him, and went back, took out their bottles, as they supposed, went to their room, uncorked and poured out from one; all drank from it, when they found that they were poisoned.

I had procured a bottle of Corrosive Sublimate only the day before while on my visit to Watertown, of E. Johnson, which was properly put up and labeled in large plain letters *Poison*, this I gave to the girl having charge of the chambers, to destroy bed-bugs, told her what it was, and ordered her to put it in some safe place. She put it into the wood box previously described, supposing that no one would have any business with it in that retired spot, but as ill luck would have it, they took this bottle instead of one which they deposited there, and did not discover their mistake until all had drank of its contents. The rest you already know, but I am happy to state they are all in a fair way of recovery.

Truly Yours, J. S. BILLINGS.

WHERE PROPERTY TAX FLY.—The following letter is from the Mr. S. D. Hastin, one of the editors of the *Michigan Farmer*, who has been on a visit to the Capital—is spoken of highly:

A late excursion through the counties of Dodge, Columbia and Jackson, has enabled me to make a pretty general observation of the crops of the fly. In Watertown county large fields of wheat have been so nearly destroyed that they have been plowed for other crops, this is particularly the case on Grand Prairie. Other fields of wheat have been seriously damaged, and present the appearance of having had a fire through them. The early sown wheat and that on the Prairie as we were informed has suffered most. We conversed with many intelligent cultivators at Kalamazoo and Marshall, and all agree, that from harvest prospect, the average crops cannot exceed from five to ten bushels per acre.

The fly is still at work and what further damage will be done time alone will determine. We did not learn in any case that the Mediterranean wheat had been injured.

The prospects for wheat is not any more promising in the county of Calhoun and the West of Jackson, and from men who are well posted on the subject, we obtain the same unfavorable report. Thus in the short space of a few weeks the fine promising fields of wheat have been scathed by the fly, a formidable foe to wheat and whose depredations are not easily prevented.—[Detroit Inquirer, May 30th.

THE CRIMEAN TELEGRAPH.—A London paper says:

Under the dark and foggy Euxine, the wire runs from Kalafava to the bold headland of Kalagra, which juts out into the sea about 14 miles north-east of Varna. From this point, it is carried along the shoals to the monastery about six miles from the town, and thence it is buried underground to the station near the house of the British consul. It is as yet uncertain how far the use of the submarine will be granted to individuals. This depends entirely on the English government, who have laid down this part of the line and have its entire management. There are at present four telegraph stations between Varna and Paris, these will be reduced to three by the junction of Rustchuck and Giurgevo, when there is every reason to believe that intelligence from the Crimea will be communicated in two hours to the cabinets of Paris and London.

AN IMPORTANT DECISION.—The General Land Office decides that small lakes or ponds are not embraced in the grant by the swamp land acts of 1840 and 1850.—[Washington Star.

CIRCUIT COURT—May 21.

JUDGE HUBBELL, PRESIDING.

In the Circuit Court yesterday, the forenoon was occupied with the disposal of chancery cases. In the afternoon a motion was made for a new trial in the case of the State vs. John Goodman, indicted, tried and convicted of an assault with intent to kill.

The reasons assigned for a new trial were, 1st that the verdict was contrary to the evidence and the law. 2d, was that of newly discovered evidence, not known at the time of the trial, tending to show that the defendant, at the time of committing the alleged act, was laboring under mental derangement, was irresponsible. The last point was substantiated by several affidavits stating that about three years since, the defendant was kicked on the head by a horse, receiving a contusion of the brain; and further describing, at different times, strange and unaccountable conduct by the defendant, and that, in the opinion of the affiants, the defendant was at times, and especially when excited to anger, deranged.

One affidavit, of a German Physician, who attended the *defendant at the time he was kicked*, set forth that the physician informed the parents of the *defendant* that he would probably be at times deranged. The motion for a new trial was granted; J. E. Arnold for defendant. District Attorney for State

George Santee was admitted to bail until the next term of the Court, in the sum of $1000, parties from Kenosha going his bail; he was discharged.

John Goodman was also admitted to bail.

Catharine Egan, convicted of adultery, will be sentenced this morning.

DRAMATIC READINGS.—Mrs. Macready will give her *promised entertainment at Young's Hall* on Monday evening, and will, we do not doubt, attract a crowded house. We hope, by the way, that the hall will be properly cleansed and ventilated for the occasion. It was neither on the night of Mr. Collins' concert.

FOURTH OF JULY.—We observe that in many of our sister cities preparations are already begun to celebrate the next Anniversary of American Independence. It is a long time since this National Holiday has been fitly honored in Milwaukee. Cannot we have an old fashioned celebration this year? Suppose the *City fathers* appoint a Committee, on Monday evening, to take the business in *hand*.

YOUNG'S HALL.—Great complaints are made by numerous persons who are in the habit of attending concerts and other entertainments at Young's Hall, of the condition in which it is kept. The gas apparatus is defective somehow, and there is frequently either a deficiency of light, or a redundancy of odors not of the kind from "Araby the blest." There is also a great want of cleanliness, the floor and seats being often in a condition unfit for use by civilized people. The proprietor will serve his own interest by attending to these things forthwith.

THINGS WORTH KNOWING.—Where the building is among all the new ones erected since last August, in which paragraph IV of Sec. 2 of the Fire Limits Ordinance has been complied with. Where the Inspector of Buildings is.

How long the Aldermen of the Third Ward mean to leave their half of the west crossing of Wisconsin street, on East Water street, without plank or stone. It is a disgrace to them, to their Ward, and to the city. Won't somebody erect a sign-post in the middle of the street, with a hand pointing south, with the inscription "THIRD WARD?"

How long before the same Aldermen mean to have the sidewalks along the west side of East Water street, between Wisconsin and Michigan streets, placed on the grade.

How long before *some* of them will break their necks on the stone steps in that sidewalk, and sue the city for the value thereof.

BUILDING ON MARKET SQUARE.—We learn from Mr. A. H. BIELFELD, who is putting up the building on Market Square, to which we yesterday invited the attention of Inspector Page, that it is to be of *one* story only, and temporary at that—it being his design, when the leases of the adjoining tenements run out, two years hence, to construct a substantial four story brick block on these lots. We understood Mr. Bielfeld to add, that the present structure is to be of wood above the foundation wall; but we don't see how that can be done under the Fire Ordinance.

GERMAN EMIGRANT AID SOCIETY.—A society has been established in this city for the protection of German emigrants, landing in New York and bound to Wisconsin. A correspondent furnishes us with a brief statement of its objects and organization, which are altogether commendable, and with we hope prove effectual in guarding emigrants from the frauds and villainy by which they are so often victimized, on their way from the Atlantic seaboard to the interior.

MARINE INTELLIGENCE.

FIRST SAIL VESSEL AROUND.—The schooner *Arctic*, Capt. PRATT, arrived saturday afternoon from Chicago, with a full cargo of corn, being the first vessel round this season. The *Arctic* still holds her own as the first of the harvest sailers afloat.—*Buffalo Express, May 28.*

QUICK WORK.—The fine new schooner *Bay State*, Capt W. S. MONTGOMERY, arrived here on Monday afternoon from Milwaukee, close on to the heels of the *Arctic*. She has made the trip around inside of 48 days. This is what we call hurrying up the cakes.—*Ib.*

THE BEST TIME YET.—The steamer *Western World* arrived here at one o'clock yesterday morning, having made the run from Detroit in 14 hours and 25 minutes—actual running time 14 hours. This is the best time ever made between the two ports.—*Ib.*

OUTSIDE.—About 60 sail of Upper Lakers, as we are informed by Capt CAMERON, of the schooner *R Moir*, are between this port and Buffalo, waiting favorable breeze to work them in.—*Buff. Com.*, 29th.

The schooner *Wings of the Morning* loaded with 13,000 bushels of wheat at Burkee & Truesdale's pier, on Sunday last.

The brig *Champlain* took on about 11,000 bushels at Hale & Ayer's pier the same day.—*Kenosha Trib. and Tel*

NEW TUG.—The new tug propeller *Rescue*, Captain SQUIRES, from Buffalo, made her appearance at our docks yesterday. She is to ply as a tug boat on the St. Clair Flats and the rivers. She is a large boat, with a powerful *engine*, and looks as though she could tow a whole *fleet*. —*Detroit Free Press.*

OUR HARBOR.—The Government Dredge, we are glad to perceive, is at length at work in our harbor, and, we are told, is doing a good work in the way of clearing the channel of obstructions. Some $20 000 of government funds, we understand, are yet unexpended, and the prospect is favorable that good use will be made of it.—*Kenosha Tel.*

Valuable Invention!
IMPORTANT TESTIMONY IN ITS FAVOR.
FLOUR INSPECTOR'S OFFICE,
Philadelphia, April 20th, 1855

MESSRS EDWIN AND JAMES M CLARK Gentlemen—Having carefully examined the construction, operation and quality of your newly patented Comb and Grinding and Bolting, or Merchant Flouring Mill, I take pleasure in presenting you and the public with the following statement as the result of my investigation

With the French Burr Mill Stone thirty inches diameter, it ground and bolted from nine to twelve bushels of wheat per hour, making a good work, and at the same time turning out at a single operation, extra flour, superfine flour, shorts, ship stuff and bran The extra and superfine flour is of an excellent quality, and the yield per bushel is equal to the large classed complicated mills of modern construction It occupies but little room, can be placed in a compass of 21 feet in length, by 6 feet wide, when in running order, with all the machinery required, can be easily removed or transported from one place to another—has no complicated machinery about it, consequently is not liable to get out of order, and takes but little power and attention Is admirably adapted to the wants of the condition of the country at large, and from its cheapness of construction and small amount of capital requisite to start it, rapidity of grinding per hour, its less cost in maintenance, durability, and application to any power now in use, I cannot but think that ere long it will be successful by established in every State in the Union, if it does not entirely take the place of the old complicated machinery heretofore used

Yours truly, STEPHEN MILLER
Head Flour Inspector of Philadelphia

This valuable Mill can be seen in operation daily, at No 213 Arch street, next to the Theatre, Philadelphia, from ten o'clock in the forenoon, until two o'clock, and from two o'clock in the afternoon, until four, by those wishing to go there during the day or night. The gentlemen still have many of the most valuable States and Counties for sale and will give all satisfaction relative to it Those desirous of engaging in it in promising speculation, will do well to call and see it soon, as hundreds are doing daily

The prices which the Patentees are selling County and States at, justify the most timid in purchasing one with in the last few weeks over sixty thousand dollars worth of the Patent Rights have been sold The Patentees, Edwin and James M Clark, intend remaining in this city for some time, for the purpose of selling the entire United States County and States for sale.

Persons writing for information must enclose Stamp to pay return postage je2 d1m*

The building 49 Ann street, occupied by John F Trow & Co, Printers and Publishers of the N Y City Directory, was destroyed by fire last night, together with all the material for the Directory in a forward state for publication The other buildings occupied by Lewis Burr, worker in gold and silver metals, and Morrill, Donald & Co, dealers in printing materials were also damaged

Mr Trow insured for $44,000, which will more than cover his loss The insurance is in numerous offices for sum varying from $20,000 to $5 000

In the U S Commissioner's office yesterday, Geo Watcher, one of the parties arrested for being engaged for enlisting men for the British army, was discharged for want of evidence, while three others were held for further examination

In the case of Miller vs Schuyler and the Ill Central R R to recover the value of certificates for 300 shares of stock at a *pro rata* subscription, the Supreme Court held that Miller was entitled to the bonds, and the Company was liable. Judg ment for plaintiff $17 000

The suit of Emory Mathews vs Moses Beach of the Sun newspaper to recover damages for an alleged libel in publishing a police report some five years ago, was terminated in the Superior Court this morning by a verdict for the defendant. This case has been before the public in and out of court for five years past, and has been anxiously watched as having a very direct influence upon the independence of the press, which is fully sustained by the verdict

Santa Anna and the Insurgents.

Baltimore, May 31.

The southern mail as late as due is at hand — The New Orleans papers contain the detail of the latest Mexican news It is stated that after Santa Anna left Morelia in pursuit of the insurgents, no account of his progress had been received, but on the contrary reports which caused his partizans great alarm were every where current. The insurgents were understood to be prepared to offer energetic resistance to his operations

Attempted Suicide of Parks.

Cleveland, May 31

Parks, the murderer, under sentence of death by hanging, to take place to-morrow, cut his throat this noon. He partially severed an artery, but he is still living, and may be saved, though not probable

WORSE AND WORSE —We remarked a few days since in speaking of mail facilities or rather the want of them, between this city and Milwaukee, that the mails went over the Lake Shore Road simply as freight or luggage might go, in the neglect of the Post Master-General to provide for post office cars and route agents on this important thoroughfare It seems that even this was a brief blessing, poor as it was, for the Milwaukee *Sentinel* states that now no mail at all is carried on the cars and the only means of its transportation between the two cities, Chicago and Milwaukee, is the night line of steamboats We shall next expect to hear that this last arrangement will be stopped, and that the tri weekly horse back mail, with which the citiz

Valuable Invention!
IMPORTANT TESTIMONY IN ITS FAVOR.
FLOUR INSPECTOR'S OFFICE,
Philadelphia, April 30th, 1855

MESSRS EDWIN AND JAMES M CLARK Gentlemen—Having carefully examined the construction, operation, and capability of your newly invented Comb and Grinding and Bolting, or Merchant Flouring Mill, I take pleasure in presenting you and the public with the following statement as the result of my investigation

With the French Burr Mill Stone thirty inches diameter, if ground and bolted from nine to twelve bushels of wheat per hour, making clean work, and at the same time turning out in a single operation, extra superfine flour, shorts, ship stuff and bran The extra and superfine flour is of an excellent quality, and the yield per bushel is equal to the large classed complicated mills of modern construction It occupies but little room, can be placed in a compass of 21 feet in length, by 4 feet wide, when in running order, with all the machinery complete, and can be easily packed and transported from one place to another—has no complicated machinery about it, consequently is not liable to get out of order, and takes but little power and little attendance to put in motion to the wants of the condition of the country at large, and from its cheapness of construction and small amount of capital requisite to start it, rapidity of grinding per hour, is a desideratum so much wanted in this portable and application to any power now in use, I cannot but think that ere long it will be successfully established in every State in the Union, if it does not entirely take the place of the old cumbersome and unhealthy horse-power mills

Yours truly, STEPHEN MILLER
Head Flour Inspector of Philadelphia

This valuable Mill can be seen in operation daily, at No 213 North Front street, Philadelphia, from ten o'clock in the forenoon, until two o'clock, and from two o'clock in the afternoon, until four, by those wishing to purchase County or State rights The patentees also have many of the most valuable Mill Stones for sale and will give all satisfaction relative to it Those desirous of engaging in it as a promising speculation, will do well to call and see it soon, as hundreds are doing daily

The prices which the Patentees are selling County and State rights, justify the most timid in purchasing and with in the last few weeks over sixty thousand dollars worth of the Patent Rights have been sold The Patentees, Edwin and James M. Clark, intend remaining in this city for some time, for the purpose of selling the entire United States County and States for sale.

Santa Anna and the Insurgents.

Baltimore, May 31.

The southern mail as late as this is at hand—The New Orleans papers contain the detail of the latest Mexican news It is stated that after Santa Anna left Morelia in pursuit of the insurgents, no account of his progress had been received, but on the contrary reports which caused his partisans great alarm were every where current. The insurgents were understood to be prepared to offer energetic resistance to his operations

Attempted Suicide of Parks.

Cleveland, May 31

Parks, the murderer, under sentence of death by hanging, to take place to-morrow, cut his throat this noon. He partially severed an artery, but he is still living, and may be saved, though not probable

WORSE AND WORSE.—We remarked a few days since in speaking of mail facilities or rather the want of them, between this city and Milwaukee, that the mails went over the Lake Shore Road simply as freight or luggage might go, in the neglect of the Post Master-General to provide for post office cars and route agents on this important thoroughfare It seems that even that was a brief blessing, poor as it was, for the Milwaukee *Sentinel* states that now no mail at all is carried on the cars, and the only means of its transportation between the two cities, Chicago and Milwaukee, is the night line of steamboats We shall next expect to hear that this last arrangement will be stopped, and that the tri weekly horse back mail, with which the citizens of Racine, Kenosha and Waukegan are compelled to content themselves, is extended also to Milwaukee and Chicago Have we a Government?—[Chicago Dem Press.
